

To our valued customers and suppliers,

We are excited to share important news regarding the continued advancement of our company.

When HosePower Canada joined forces with JGB Enterprises this past year, it was a natural evolution to unify our growing team under one name to better demonstrate our consolidated North American presence. By merging under one strengthened banner, we are better able to offer consistency in all aspects of our business. We are proud to announce our new company brand, Echelon Supply and Service.

You will see some changes within the next few months. We will adopt a new company logo that better expresses the progressive and innovative development of our organization. Our signage, invoicing, packaging, and related documents will be rebranded as of December 31st, 2021. Additionally, all locations throughout North America will be stocking the Forsaflex range of industrial and hydraulic products.

What remains unchanged is our unwavering commitment to provide the best in products and services to our loyal customers, who remain our highest priority. You will still see our great products, such as Forsaflex, but with the added benefit of an expanded product catalog and added locations across North America. We are here to help you keep moving forward!

Please note, our rebranding and name change will not impact any of our current shipping and billing addresses, tax identification, nor remittance information. All the contacts you have come to know, and trust will still be at your service.

Thank you for your continued support as we usher in meaningful and progressive change to serve you better!

Please contact your local branch by phone, email, or in-person with any questions:

Thank you, from the Echelon Team!

“Continuity gives us roots; change gives us branches, letting us stretch and grow and reach new heights.” -
Pauline R. Kezer
